

Lab: Strategic Sensing System Design

Objectives

Learning Goal: Design a competitive intelligence system that detects weak signals and monitors strategic risks.

Part 1: Current Sensing Audit (10 min)

Information Source	What It Senses	Time Horizon	Blind Spots

Write your response here

Part 2: Weak Signal Scan (15 min)

Signal	Source	Potential Significance	Confidence	Action if True
			H/M/L	

Write your response here

Part 3: Blind Spot Analysis (10 min)

Blind Spot Category	What You Might Be Missing	Why (model limitation)	Mitigation
Confirmation bias			
Proximity bias			
Success bias			
Quantification bias			

Write your response here

Part 4: Sensing System Design (15 min)

Component	Design	Responsible	Cadence
Broad scanning			
Deep monitoring			
Weak signal detection			
Intelligence analysis			
Decision integration			

Write your response here

Summary

Finding	Detail
Biggest sensing gap	
Most important weak signal	
Priority system improvement
