

Lab: Scenario Planning Exercise

Objectives

Learning Goal: Build strategic scenarios, evaluate your strategy under each, and design resilience improvements.

Part 1: Key Uncertainty Identification (10 min)

Uncertainty	Impact on Your Business (H/M/L)	Predictability (H/M/L)

Select the two highest-impact, lowest-predictability uncertainties as scenario axes.

Write your response here

Part 2: Scenario Construction (15 min)

Dimension	Scenario A	Scenario B	Scenario C
Name			
Key assumption			
Market environment			
Technology state			
Regulatory frame			
Probability estimate			

Write your response here

Part 3: Strategy Stress Test (15 min)

Strategy Element	Scenario A	Scenario B	Scenario C
Revenue model	Works? Y/N		
Competitive position	Strong/Weak		
Resource adequacy	Sufficient? Y/N		
Overall viability	Viable? Y/N		

Write your response here

Part 4: Resilience Design (10 min)

Risk Identified	Hedging Action	Real Option to Maintain	Signpost to Monitor

Write your response here

Summary

Finding	Detail
Strategy most vulnerable to scenario	
Most robust strategy element	
Priority real option to create/maintain	
First signpost to monitor
