

Lab: Silent Charades

Goal

To practice sending and receiving non-verbal signals.

What You Need

- Scrap paper with words (Snake, Airplane, Eating Spaghetti, Sleeping).
- A bowl.

Steps

1. The Draw

Pick a slip of paper. Don't show anyone!

2. The Act

Act it out. NO TALKING. NO NOISES. Use your body, face, and hands.

3. The Guess

The other players guess. "Are you a bird?" No (Shake head). "Are you a plane?" Yes (Nod head)!

Discussion

- How did you know what they meant?
- Did you use your Mirror Neurons?
- Was it frustrating when they didn't understand?

What We Learned

We can say a lot without saying a word.
