

Course — Module 03 — Think About It

1. How can you tell if someone is bluffing? (Micro-expressions).
2. Why do referees use whistles? (Sound cuts through the noise).
3. If everyone stops talking, what does it mean? (Something happened!).
4. Can you play "Simon Says" with your eyes closed? (No, you need Visual Data).
5. Why is eye contact important? (It connects the brains).
6. What does a "Time Out" signal look like? (Hands in a T).
7. How do you know it's your turn? (People look at you).
8. Why do crowds cheer? (To send energy to the team).
9. Can you hear a smile over the phone? (Yes, the voice changes shape).
10. If you were invisible, would people still know you were there?
