

Course — Module 02 — Think About It

1. Do robots dream? (Probably not... yet).
2. Can a robot feel pain? (No, but it can sense damage).
3. Why do we make robots look like humans? (So we like them more).
4. What is the difference between a toaster and a robot? (A robot can make decisions).
5. Can a robot verify truth? (Only if its data is true).
6. Will robots take all the jobs? (They will take the boring jobs!).
7. Can a robot write a poem? (Yes, AI can. But does it *feel* the poem?).
8. Why do robots need batteries? (Energy = Action).
9. If a robot breaks a vase, is it "guilty"? (No, it's just a machine).
10. Would you want a robot butler?
