

Course — Module 08 — Think About It

1. What is the hardest part of making a video game? (Fixing the bugs!).
2. Why do games need rules? (To make it fair and fun).
3. What is a "Glitch"? (A mistake in the code).
4. Can you code without a computer? (Yes, you can write the logic on paper).
5. What makes a game "Addictive"? (Reward loops).
6. Who draws the art for games? (Graphic Artists).
7. Who writes the music? (Composers).
8. Is coding a language? (Yes, it's how we talk to machines).
9. What happens if you delete a line of code? (The program might crash).
10. If you made a game about your life, what would the goal be?
