

Lab: Action Charades

Goal

Use Action to show a word without speaking!

What You Need

- Paper slips with action words written on them (Run, Sleep, Eat, Brush Teeth, Fly)
- A bowl to hold the slips
- Friends or family to guess

Steps

1. Pick a Secret Action

Reach into the bowl and pick one paper slip. Don't show anyone! (Example: "Brush Teeth")

2. Plan Your Action

Think: "How can I show this using only my body? I need to move my hand up and down near my mouth."

3. Take Action

Do the movement! No talking! Use your whole body to show the word. Make your movements big and clear so your friends can see what you are doing.

4. Friend's Perception

Your friend watches (Perception) and guesses (Cognition). "Are you eating corn?" -> "No."
"Are you brushing your teeth?" -> "YES!"

5. Switch Turns

Now your friend picks a slip and acts it out. Can you guess what they are doing? Keep playing until all the slips are used up!

My Action Log

*

Write your response here

* I acted out: ____ My friend guessed: ____ The hardest word to act out was: ____ The easiest word to act out was: ____

What We Learned

Question	My Answer
What was my secret action?	
Did my friend guess it?	
Was I a good actor?	
What made some words harder to act out?
