

Lab: The Follower Game

Goal

To practice Leading and Following (Switching Roles).

What You Need

- A partner.
- Space to walk.

Steps

1. Follow the Leader

Person A is the Leader. Person B is the Shadow. Walk around the room. If A stops, B stops. If A hops, B hops.

2. The Switch

Yell "SWITCH!" Now B is the Leader and A is the Shadow. Did you change your mind?

3. The Hive Mind

Try to walk together side-by-side. No leader. No follower. Just stay together. (This is Swarm Intelligence!).

Discussion

- Which was harder? Leading or Following?
- How did you know when to turn?
- Teams work best when they move like a Swarm.

What We Learned

Agents can be leaders or followers. The best agents can do BOTH.
