

Lab: Knowledge Management System Design

Objectives

Learning Goal: Map your team's knowledge landscape — transactive memory, SECI balance, and institutional knowledge vulnerabilities.

Part 1: Transactive Memory Map (15 min)

Knowledge Domain	Primary Expert	Backup Expert	Documented?	Risk if Expert Leaves
			Y/N	H/M/L

Write your response here

Part 2: SECI Balance Assessment (10 min)

SECI Mode	How Your Team Does This	Effectiveness (1-5)	Gap
Socialization (tacit→tacit)			
Externalization (tacit→explicit)			
Combination (explicit→explicit)			
Internalization (explicit→tacit)			

Write your response here

Part 3: Vulnerability Assessment (10 min)

Identify critical knowledge that is at risk:

Knowledge at Risk	Why It's Critical	Why It's Vulnerable	Mitigation

Write your response here

Part 4: Knowledge System Design (15 min)

Design an improvement to your team's knowledge management:

Element	Current State	Desired State	Implementation Plan
Knowledge capture			
Knowledge sharing			
Knowledge retrieval			
Knowledge updating			

Write your response here

Summary

Finding	Detail
Single point of failure (knowledge held by one person)	
Weakest SECI mode	
Highest-risk knowledge area	
Priority action
