

Lab: Strategic Assumption Audit

Objectives

Learning Goal: Surface, classify, and create monitoring plans for the assumptions underlying your organization's strategy.

Part 1: Assumption Elicitation (15 min)

List the key assumptions underlying your organization's strategy:

#	Assumption	Category (Customer/Competitor/Technology/Regulatory/Macro)
1		
2		
3		
4		
5		

Write your response here

Part 2: Importance-Vulnerability Matrix (10 min)

Assumption	Importance (H/M/L)	Vulnerability (H/M/L)	Priority

Write your response here

Part 3: Signpost Definition (15 min)

For your highest-priority assumptions, define observable signposts:

Assumption	Signpost (what would indicate it's failing?)	Data Source	Monitoring Cadence

Write your response here

Part 4: Hedging Plans (10 min)

Assumption	If It Fails...	Hedging Action (contingency plan)	Cost of Hedge

Write your response here

Summary

Finding	Detail
Most critical assumption	
Most vulnerable assumption	
First signpost to monitor	
Priority hedging action
