

Study Questions: Cognition

1. Define **Cognition** in your own words, specifically as it applies to Robotics.
2. How does the Free Energy Principle constrain our understanding of Cognition?
3. Contrast the Classical view of Cognition with the Active Inference view.
4. Develop a question that connects Cognition to a real-world problem in Robotics.
5. Develop a question that connects Cognition to a real-world problem in Robotics.
6. Develop a question that connects Cognition to a real-world problem in Robotics.
7. Develop a question that connects Cognition to a real-world problem in Robotics.
8. Develop a question that connects Cognition to a real-world problem in Robotics.
9. Develop a question that connects Cognition to a real-world problem in Robotics.
10. Develop a question that connects Cognition to a real-world problem in Robotics.
11. Develop a question that connects Cognition to a real-world problem in Robotics.
12. Develop a question that connects Cognition to a real-world problem in Robotics.
13. Develop a question that connects Cognition to a real-world problem in Robotics.
14. Develop a question that connects Cognition to a real-world problem in Robotics.
15. Develop a question that connects Cognition to a real-world problem in Robotics.
16. Develop a question that connects Cognition to a real-world problem in Robotics.
17. Develop a question that connects Cognition to a real-world problem in Robotics.
18. Develop a question that connects Cognition to a real-world problem in Robotics.
19. Develop a question that connects Cognition to a real-world problem in Robotics.

20. Develop a question that connects Cognition to a real-world problem in Robotics.
