

Lab: Digital Communication Architecture

Assessment

Objectives

Learning Goal: Audit and improve your organization's digital communication architecture.

Part 1: Channel Inventory (10 min)

Channel	Type (Sync/Async/Broadcast/API)	Primary Use	Users	Redundancy?
				Y/N

Write your response here

Part 2: Communication Flow Mapping (15 min)

Information Flow	Source	Channel	Destination	Effectiveness (1-5)
Customer inquiry				
Team coordination				
Leadership directive				
Cross-team alignment				

Write your response here

Part 3: Problem Diagnosis (10 min)

Problem	Present?	Impact	Root Cause
Tool fatigue	Y/N		
Channel fragmentation	Y/N		
Information silos	Y/N		
Notification overload	Y/N		
Undocumented API dependencies	Y/N		

Write your response here

Part 4: Architecture Redesign (15 min)

Improvement	Current State	Target State	Action
Channel rationalization			
Coherence across touchpoints			
API governance			
Search/findability			

Write your response here

Summary

Finding	Detail
Biggest communication problem	
Most underused channel	
Priority improvement
