

Lab: The Maze Game

Goal

Help a paper agent find its goal!

What You Need

- Paper
- Pencils
- A small toy or button (this is your Agent)

Steps

1. Draw a Maze

Draw a simple maze on your paper.

- Draw a **Start** circle.
- Draw a **Goal** star (put a drawing of a yummy snack or a treasure there!).
- Draw walls (lines) that the agent can't walk through.

2. Be the Agent

Put your toy on the Start circle. You are the Agent. Your Goal is to get to the Star.

3. Make Choices

Move your toy.

- "Oh no! A wall!" -> Make a choice to turn left or right.
- "Path is clear!" -> Action: Go forward!

4. Reaching the Goal

When you reach the Star, cheer! "I made it!"

My Agent Story

*

Write your response here

* What happened when your agent hit a wall? Did it give up or try a new way?

What We Learned

Question	My Answer
Did I get the treat?	
Was the goal hard?	
Did I change my plan?
