

Course — Module 01 — Think About It

1. Why does your heart beat faster when you run?
2. What would happen if your bones were made of jelly?
3. Why do we need to eat food? (Fuel for the system!)
4. Can you tickle yourself? Why or why not? (Prediction!)
5. What job does your skin do?
6. How does your stomach help your legs run?
7. Do robots have a heart? What is their "pump"? (Battery?)
8. Why do you get tired at night?
9. If you scrape your knee, how does the system fix it?
10. Which body part is the "Boss"? (The Brain!)
