

Lab: Brain Training Camp

Goal

To see how **Practice** makes you faster.

What You Need

- Paper squares (cards).
- A marker.
- A stopwatch (or count seconds).

Steps

1. Make the Cards

Write 5 math problems on cards (one on each).

- $\$1 + 1\$$
- $\$2 + 2\$$
- $\$3 + 3\$$
- $\$4 + 4\$$
- $\$5 + 5\$$

2. Run 1 (The Baseline)

Mix them up. Flip them over and solve them as fast as you can. **Time:** _____ seconds.

3. Training

Practice them 5 times. Say the answers out loud! Fix any mistakes.

4. Run 2 (The Test)

Mix them up again. Solve them as fast as you can. **Time:** _____ seconds.

My Training Log

Run	Time (Seconds)	Did I get faster?
Run 1	20 seconds	-
Run 2	10 seconds	Yes! Half the time!

What We Learned

Practice works! Your brain learned the patterns and didn't have to "think" as hard the second time.
