

Study Questions: Learning

1. Define **Learning** in your own words, specifically as it applies to Robotics.
2. How does the Free Energy Principle constrain our understanding of Learning?
3. Contrast the Classical view of Learning with the Active Inference view.
4. Develop a question that connects Learning to a real-world problem in Robotics.
5. Develop a question that connects Learning to a real-world problem in Robotics.
6. Develop a question that connects Learning to a real-world problem in Robotics.
7. Develop a question that connects Learning to a real-world problem in Robotics.
8. Develop a question that connects Learning to a real-world problem in Robotics.
9. Develop a question that connects Learning to a real-world problem in Robotics.
10. Develop a question that connects Learning to a real-world problem in Robotics.
11. Develop a question that connects Learning to a real-world problem in Robotics.
12. Develop a question that connects Learning to a real-world problem in Robotics.
13. Develop a question that connects Learning to a real-world problem in Robotics.
14. Develop a question that connects Learning to a real-world problem in Robotics.
15. Develop a question that connects Learning to a real-world problem in Robotics.
16. Develop a question that connects Learning to a real-world problem in Robotics.
17. Develop a question that connects Learning to a real-world problem in Robotics.
18. Develop a question that connects Learning to a real-world problem in Robotics.
19. Develop a question that connects Learning to a real-world problem in Robotics.

20. Develop a question that connects Learning to a real-world problem in Robotics.
