

Study Questions: Agents

1. Define **Agents** in your own words, specifically as it applies to Robotics.
2. How does the Free Energy Principle constrain our understanding of Agents?
3. Contrast the Classical view of Agents with the Active Inference view.
4. Develop a question that connects Agents to a real-world problem in Robotics.
5. Develop a question that connects Agents to a real-world problem in Robotics.
6. Develop a question that connects Agents to a real-world problem in Robotics.
7. Develop a question that connects Agents to a real-world problem in Robotics.
8. Develop a question that connects Agents to a real-world problem in Robotics.
9. Develop a question that connects Agents to a real-world problem in Robotics.
10. Develop a question that connects Agents to a real-world problem in Robotics.
11. Develop a question that connects Agents to a real-world problem in Robotics.
12. Develop a question that connects Agents to a real-world problem in Robotics.
13. Develop a question that connects Agents to a real-world problem in Robotics.
14. Develop a question that connects Agents to a real-world problem in Robotics.
15. Develop a question that connects Agents to a real-world problem in Robotics.
16. Develop a question that connects Agents to a real-world problem in Robotics.
17. Develop a question that connects Agents to a real-world problem in Robotics.
18. Develop a question that connects Agents to a real-world problem in Robotics.
19. Develop a question that connects Agents to a real-world problem in Robotics.

20. Develop a question that connects Agents to a real-world problem in Robotics.
