

Study Questions: Communication

1. Define **Communication** in your own words, specifically as it applies to Robotics.
2. How does the Free Energy Principle constrain our understanding of Communication?
3. Contrast the Classical view of Communication with the Active Inference view.
4. Develop a question that connects Communication to a real-world problem in Robotics.
5. Develop a question that connects Communication to a real-world problem in Robotics.
6. Develop a question that connects Communication to a real-world problem in Robotics.
7. Develop a question that connects Communication to a real-world problem in Robotics.
8. Develop a question that connects Communication to a real-world problem in Robotics.
9. Develop a question that connects Communication to a real-world problem in Robotics.
10. Develop a question that connects Communication to a real-world problem in Robotics.
11. Develop a question that connects Communication to a real-world problem in Robotics.
12. Develop a question that connects Communication to a real-world problem in Robotics.
13. Develop a question that connects Communication to a real-world problem in Robotics.
14. Develop a question that connects Communication to a real-world problem in Robotics.
15. Develop a question that connects Communication to a real-world problem in Robotics.
16. Develop a question that connects Communication to a real-world problem in Robotics.
17. Develop a question that connects Communication to a real-world problem in Robotics.
18. Develop a question that connects Communication to a real-world problem in Robotics.
19. Develop a question that connects Communication to a real-world problem in Robotics.

20. Develop a question that connects Communication to a real-world problem in Robotics.
